Larkspur, CA 94939

Dear Ms. Wilson

Enclosed please find the original and one copy of POINT foundation's application for a $5,000.00 Environmental Planning Grant from The Marin Community Foundation.

I have included a letter of support from Alice MacNamee with the application. Steve Cisler from Apple Computer also wrote a Letter Of Support for this project which we have not yet received but will forward when we do.

Hopefully this application is clear and all attachments are attached, but if you have any questions please feel free to call me.

Thank you for your continued support during this process.

Yours truly,

Stephanie Leonard
Executive Director
Whole Earth Institute

    - X Other (specify) Planning Grant
14. Current Major Funding Sources: Donations, Subscriptions...
15. Year Organization Founded: 1971
16. Year Program/Project Initiated (if applicable)
17. A one paragraph executive summary of the request:

POINT Foundation is currently seeking a planning Grant from the Marin Community Foundation to help us determine how to effectively organize, shelve and catalogue approximately 5,000-7,000 books and publications now housed in the Whole Earth librarian, Dave Hunter, will work with a task force of advisors to determine how this task can be done most efficiently. Through this planning and feasibility phase the task force will develop a timeline and detailed budget for the cost of the Library project, including a timeline and detailed budget. The ultimate goal of this project is to further financial assistance from various foundations, including the Marin Community Foundation, to create a Whole Earth Environmental Resource Library that is accessible to environmental organizations and independent researchers throughout the County via the Marin County On-line computer system. The Library also will be available to out-of-area organizations and researchers according to a fee schedule which would be determined with the initial three month planning phase.
